The application deadline is March 15, 2011. Travel is not required for most committees.

ICC is updating the 2009 IBC Structural Checklist.

8.2 Use of LARUCP Logo

Vice President Truong Huynh led a spirited discussion of the current use of the LARUCP Logo and its history. Many outside of our jurisdiction have recognition of this logo and continue to call and inquire about checklists and other information from LARUCP. Some felt that because we no longer use the Uniform code the logo is outdated; others felt that the uniformity of standards and the logos brand recognition is reason to keep. The Board will continue to discuss this matter.

9.0 NEW BUSINESS.

- Host City – Redondo Beach

Brief presentation on the City of Redondo Beach was given which discussed current trends and some of the projects in the city.

- Technical Discussion

Discussion on Electric vehicles (EV) and a checklist that Edison is helping to develop for those who go to dealer and need information on electrical requirements for EV. Several cities are involved in these discussions.

10.0 PROGRAM – Building Officials, Plan Check Engineers, Inspectors and Counter Techs will benefit greatly from these topics:

10.1 ICC Evaluation Service – Shahin Moinian, P. E. Executive Director of the ICC Evaluation Service Certification Program will give this presentation. This presentation will give us a better understanding of the ICC Evaluation Service. What they do, why do we need them, who do we contact and when should we contact them. No one should miss this program.
